

Grand Challenges Explorations Round 10

Rules & Guidelines

Proposals due Wednesday, November 7, 2012, 11:30 a.m. U.S. Pacific Daylight Time

I. Overview

Grand Challenges Explorations (GCE) supports hundreds of early-stage research projects – including many ideas that have never before been tested -- and scientists from a wide range of disciplines and regions. The Explorations initiative funds innovative ideas that could lead to new vaccines, diagnostics, drugs, and other technologies targeting diseases that claim millions of lives every year.

GCE is an extension of the Bill & Melinda Gates Foundation's commitment to the Grand Challenges in Global Health, which was launched in 2003 to accelerate the discovery of new technologies to improve global health. To date, the foundation has committed over \$450 million to support hundreds of projects on topics such as making childhood vaccines easier to use in poor countries, and creating new ways to control insects that spread disease.

Key features of the Grand Challenges Explorations initiative are:

- A short 2 page application. Instructions are available online at: <http://www.grandchallenges.org/Explorations/Pages/ApplicationInstructions.aspx>
- Rapid turnaround time. We will select grants in approximately five months from the proposal submission deadline.
- We review for novel ideas that show great promise. Our review process is based on reviewers with a track record in identifying innovative ideas selecting the proposals they find most pioneering - no consensus or peer review is needed.
- **Phase I grants of \$100,000 USD** are awarded initially; projects have **one** opportunity to apply for a follow-on **Phase II grant of up to \$1,000,000 USD**.

Tips for Grant Seekers

- Your proposal must represent an innovative approach that is responsive to the topic. The foundation has a number of other avenues of funding for the equally important research that is within currently accepted paradigms. Such work will not be funded under Grand Challenges Explorations.
- Applications are sent to reviewers without personal or organizational information. **Do not include this information in the body of your proposal.** Proposal that include personal or organization information in the body of the proposal are at risk of being automatically removed from the review.
- Your proposal will be reviewed by a panel with broad expertise and a track record in identifying innovations – these reviewers may not be deep domain experts in your field. You must describe your idea in clear language without the use of jargon unique to your field.
- The work proposed in your application must include a clear set of key experiments or activities that test your idea in a way that could provide sufficient evidence to motivate Phase II funding. Proposals with vague descriptions or vague testing methodologies will not be funded.

II. Application Instructions

Schedule

Key dates and deadlines for Round 10

Key Dates	Event
September 2012	Application period opens
November 7, 2012, 11:30 a.m. Pacific Daylight Time	Application deadline
February 2013	Proposal review completed
April 2013	Selections completed and notifications sent

How To Apply

Changes to the Rules and Guidelines will be posted on the [Frequently Asked Questions](#) page of the Grand Challenges in Global Health website (www.grandchallenges.org), including any changes to the dates listed above. Please read the current FAQs before submitting any questions or concerns.

Any information submitted by you or on your behalf with respect to the Grand Challenges Explorations initiative (including your proposal, reports, and any related documentation and communications) will be subject to and handled in accordance with the provisions in the [Privacy Policy](#).

The Grand Challenges Explorations initiative will publish topics and invite proposals twice a year, in two separate rounds. Each round, grant seekers must select only one of the topics under which to submit and may submit only one proposal. Submit your best idea. You may submit multiple ideas in partnership with collaborators, but an individual PI may lead the submission of only one proposal each round. You must select a topic prior to submitting a proposal. View the detailed topic descriptions and determine which topic best suits your idea. You may change your topic and edit your proposal any time before the application deadline.

If you are an existing user, you can log in to your existing account. All new users please create an account, select your topic, and upload your proposal.

Application Format

We encourage you to use the provided application form, which can be downloaded at: [Explorations Application Form](#). You are required to submit either a Microsoft Word® or PDF document; no more than 2 pages in length. References to academic publications are not required and, if included, must fall within the 2-page limit. Please do not include a cover sheet with your proposal. A cover sheet will be automatically generated from your registration data.

The review and evaluation of your application is not based on your past history or institutional capabilities. **No personal or organizational information, including information regarding potential project partners, should be included in the uploaded application. Proposals that do not adhere to these restrictions may be removed from the review.**

Proposals for Round 10 must be submitted prior to the submission deadline of 11:30 a.m. Pacific Daylight Time on Wednesday, November 7, 2012.

Eligibility Criteria

Grand Challenges Explorations is open to both foreign and domestic non-profit organizations, for-profit companies, international organizations, government agencies and academic institutions. Grants will not be provided to individuals.

Upon registration, applicants must provide information about the tax status of their organization as different grant terms and conditions may apply. We recommend that you confirm your tax status with the appropriate entity within your organization such as your grants or contracts department, finance or office of sponsored research. For specific information about tax status and categories, you may also go to the Internal Revenue Service web site at www.irs.gov.

In addition, during the application process we will require you to answer the following questions:

1. *To help us better understand the potential scope of activity in this area of research, and to possibly assist you in building necessary relationships with other organizations, please identify any third party that owns intellectual property encompassing or related to the intended health product, technology, or approach that is the focus of this proposed project. We anticipate that you will identify any known third parties based only on your current knowledge. We do not require that you conduct any type of inquiry into the intellectual property rights of third parties.*
2. *Do you authorize the foundation to communicate with you on topics that we think might be of interest to you (for example, sharing with you future opportunities for funding)?*
3. *Confirm that you have read and understand the [Website Terms and Conditions](#), [Privacy Policy](#), and [Rules and Guidelines Document](#), and acknowledge that any information submitted on their behalf with respect to the Grand Challenges Explorations Initiative (including your proposal, reports, and any related documentation and communications) will be subject to and handled in accordance with such provisions.*

III. Review Process

Review and Handling of Proposals

The review of proposals is a critical element of the Grand Challenges Explorations initiative - its goal is to filter and harness creative ideas. For each round of the initiative, we will advertise a set of challenges carefully defined to elicit innovative responses to critical barriers to health solutions that fall within the context of the Grand Challenges in Global Health.

The foundation has put in place policies and procedures to restrict public dissemination of grant application materials including, when possible, having external reviewers sign confidentiality agreements and requiring that reviewers destroy or return to the foundation all copies of information acquired or created during the course of performing a review. In some instances, however, we are unable to put in place confidentiality agreements to police the use of grant application materials.

In certain circumstances applications will be provided to additional third-party reviewers who have expressed an interest in funding GCE projects. Therefore, any information submitted by you or on your behalf with respect to the Grand Challenges Explorations Initiative (including your proposal, reports, and any related documentation and communications) may be provided to potential third-party funders so that they may evaluate the project for potential funding.

The foundation does not publicly disseminate or "publish" proposals or supporting information related to grant applications. For IRS compliance reasons we are required to publish a list of grants that we have made. We do not publish the full proposal or any supporting materials. We do, however, provide a general description of the grant on

our web sites including www.gatesfoundation.org and www.grandchallenges.org . These brief descriptions are also made available in press releases and other marketing materials.

Due to the large number of proposals anticipated, applicants for proposals that are not selected for award will receive a notification of decline without specific feedback. Nonetheless applicants are encouraged to submit ideas in future rounds.

The review process for Phase I will be executed in four steps:

1. The first step will consist of screening submissions by staff to address whether the proposal addresses the key needs described in the topic. We will screen for completely unrelated responses as well as specifically excluded related responses outlined in the topic description. These excluded responses encompass ideas related to the topic but for strategic reasons, we would not plan to fund under this initiative. In addition we will exclude proposals consider as incremental advances, appropriate responses that are similar to work the Global Health Program is already investing in, or avenues of inquiry we deem ill-suited to the Grand Challenges Explorations grant structure. Applications excluded during the screening process will be notified that their proposals were declined.
2. For the second step of the evaluation, reviews will be chaired by the appropriate program director, with reviewers drawn from the world's leading innovative minds, who do not necessarily have deep domain expertise for the full range of topics. Unlike most scientific funding programs, individual reviewers are empowered to make funding decisions without consensus on selections. Proposals will be sent to reviewers without any personal or organizational information.

In order of importance, the criteria for these reviews are:

- **Topic Responsiveness** – How well does the proposal address a key need illustrated in the topic description?
 - **Innovative Approach** – Does the idea offer an unconventional, creative approach to the problem outlined in the topic?
 - **Execution Plan** – Is the work described feasible within the budget and time allocated for a Phase I GCE award and if successful, would it be sufficient to show a clear path to further support?
3. The third step will be a validation and final selection by an Executive Committee of the proposals initially selected by reviewers in the second step of the evaluation. The Executive Committee will be chaired by the appropriate program Director.
 4. The fourth and final step will be a due diligence review to ensure that the potential grantee is an appropriate recipient of foundation funding. While the first three steps of the review will largely be blind to the institution and investigator, the due diligence review will ensure that the investigator and institution have the basic capacity to receive the grant and perform the work described. Individuals with successful projects will be contacted at this point. Investigators with unsuccessful projects will receive notice that their project was not selected. **Due to the large volume of proposals we will not be able to give specific feedback as to why an individual proposal was not selected.**

Management of Conflict of Interest

To identify and avert conflicts of interest among reviewers, reviewers will not be permitted to review proposal from organizations which the reviewer has self-identified conflicts of interest.

IV. Key Elements of GCE Phase I Grant Terms and Conditions

The detailed Sample Grant Terms and Conditions can be found in the Appendix at the end of this document. These Terms and Conditions have been developed specifically for the Grand Challenges Explorations initiative **and are**

not negotiable. You are advised to ensure that your institution can accept these Terms and Conditions at the time of proposal submission. If your proposal is selected, you will have a very limited amount of time after the notification of award to accept the grant and return the award letter with an appropriate institutional signature.

1. The term of the Phase I grants expires 18 months from the project start date. The grant award will be up to \$100,000 USD.
2. The applicant must return a fully executed Grant Agreement to the foundation post-marked no later than the date indicated by the Grants Management team to receive a GCE Phase I grant award. For non-profit grantees, funds will be disbursed upon return of a fully executed Grant Agreement to the foundation. For-profit grantees must submit invoices of expenditures in order to receive disbursement of funds. Specific instructions for invoicing for for-profit grantees will be provided at the time of the award.
3. If an annual meeting of GCE grantees is hosted by the foundation, additional funds will be provided to support up to two investigators from the project to participate in the annual meeting.
4. No grantee will be permitted to make subgrants, but all grantees will be permitted to contract out for services, up to a maximum of one-third (1/3) of the grant funds (\$33,000 USD). Phase II grants will not have this limitation.
5. All grantees will be entitled to purchase equipment, provided that each item is less than \$5,000 USD and that the aggregate purchases do not exceed 1/4 of the grant funds (\$25,000 USD). Phase II grants will not have this limitation.
6. The funds may be used to cover the full direct costs of the project, but no grantee will be entitled to use grant funds to cover indirect costs. Please see the Sample Grand Challenges Explorations Terms and Conditions (located in the Appendix of this document) for the definition of indirect costs. Phase II grants will follow the foundation's normal guidelines for indirect costs.
7. Non-US grantees will not be allowed to use grant funds for US expenditures. Phase II grants will not have this limitation.
8. Grant funds may be used for human subjects research (including, but not limited to, the use of any human tissue samples or the conduct of human clinical trials), but grantees must have all appropriate approvals, assurances and certifications (including, but not limited to, IRB approvals) on the date the Grant Agreement is fully executed. Grantees do not need to have all required Approvals in place at the time of application; however they must receive them as of the date the Grant Agreement is fully executed.
9. The grantee must agree, to the extent it is within their reasonable control, to conduct and manage support of the research, product development and innovations funded by this grant in a manner that facilitates the achievement of the Global Access Objectives with respect to knowledge, intellectual property, and products arising from the research. Please see paragraph V of the Terms and Conditions in the Appendix describing the Global Access Objectives.

Additional details with regard to the Grant Terms can be found in the Sample Terms and Conditions provided as an appendix to this document. Please note that the specific set of Sample Terms and Conditions that would apply to the grant is dependent on the tax status of the grantee organization. We strongly encourage you to share the Sample Terms and Conditions with the appropriate entity within your organization such as your grants and contracts department, legal department or office of sponsored research.

V. Phase I Reporting

A Financial and Scientific Report will be prepared by the grantee. This report is due as described in the Reporting section of the Sample Grand Challenges Explorations Terms and Conditions (located in the Appendix of this document). The report is to be submitted electronically and should be a cumulative, stand-alone document that

describes the work proposed in the grant award. The scientific section of the report must include any technical data gathered, models developed, and summary conclusions. The financial section of the report should include an account of the funds expended. Detailed instructions for the reporting format, including the format for the optional Phase II proposal will be provided at the time of award.

VI. Phase II Grand Challenges Explorations Awards

Phase II funding will provide an opportunity to expand support for grants that demonstrate innovative solutions towards the Grand Challenge goals and are critical to foundation strategies. Phase I grantees have **one** chance to apply for Phase II funding **of up to \$1,000,000 USD over two (2) years**.

In a small number of cases **the foundation may elect to provide a GCE Phase I extension award of \$100,000 USD** instead of providing a final decision to award or decline a Phase II project. In these cases, grantees will be required to submit a revised proposal with a scope of work commensurate with a budget of \$100,000 USD. Grantees may choose to accept or decline the GCE Phase I extension award. By accepting the Phase I extension award, grantee will be eligible to submit a Phase II application for up to \$1,000,000 USD under a new set of Terms and Conditions and revised timeline.

Regardless, all Phase I grantees must submit a final report once all of the Phase I funds have been expended.

VII. Privacy Notice and Terms of Use

Our full privacy policy and terms of use are located at www.grandchallenges.org/about/Pages/TermsOfUse.aspx

Representation: By providing any Submission Materials, the sender represents to the Bill & Melinda Gates Foundation that they have the right to provide the information submitted.

Applicants with questions concerning the contents of their Submission Materials may contact the Bill & Melinda Gates Foundation at: GCEhelp@gatesfoundation.org.

VIII. Frequently Asked Questions

Changes to this document will be displayed at www.grandchallenges.org. Please refer to these [Frequently Asked Questions](#) regularly, as they may impact the structure of the program.

IX. Inquiries

Please direct all questions about this initiative, selection criteria, or application instructions by e-mail to the following address: mail to: GCEhelp@gatesfoundation.org.

Appendix

Sample Grand Challenges Explorations Terms and Conditions

I. Organizational Eligibility and Use of Funds

Tax-Exempt Status. The foundation will make grants in reliance on the correct representation in your grant application as to the tax status of your organization. You must indicate which of the following descriptions applies to your organization.

The organization is:

- Exempt from United States Federal income tax under section 501(c)(3) of the United States Internal Revenue Code of 1986 (the “Code”) and not a private foundation;
- A United States government unit described in section 170(c)(1) of the Code;
- A foreign government or an agency or instrumentality of a foreign government that has provided to the foundation a Foreign Government Affidavit;
- A foreign (non-U.S.) non-profit charitable organization that has provided to the foundation, prior to the execution of the Grant Agreement, a completed Foreign Public Charity Equivalency Affidavit sufficient to allow the foundation to make a good faith determination that your organization is described in section 501(c)(3) of the Code and not a private foundation;
- Not a tax-exempt organization under the U.S. Internal Revenue Code of 1986 or a private foundation under such U.S. tax law. As a result, the Bill & Melinda Gates Foundation is required to exercise expenditure responsibility with respect to this grant. As a condition to receipt of the grant funds, you agree to take all actions necessary to facilitate the Gates Foundation’s compliance with its expenditure responsibility obligations.

Use of Grant Funds. The use of the grant funds must be restricted solely to the purposes of the Project described in the Proposal. Grant funds may not be used: (a) for any purpose other than the Project; (b) to carry on propaganda or otherwise attempt to influence legislation; (c) to influence the outcome of any public election or to carry on, directly or indirectly, any voter registration drive; (d) to make a subgrant to any individual or to any other organization; or (e) for any purpose other than charitable, scientific, literary or educational purposes. Any portion of the grant funds unexpended or uncommitted at the end of the grant period must be promptly returned to the Foundation. **FOR NON-U.S. GRANTEES:** All payments will be made in U.S. dollars and will not be adjusted to reflect currency fluctuations. While grant funds may be used to support activities in the United States the Foundation may request that foreign for-profit grantees minimize expenditures of grant funds in the U.S. to limit tax withholding.

Limitations on Capital Assets. You may use the grant funds to purchase capital assets such as equipment so long as (1) the assets are used exclusively for the Project during the term of the grant; (2) the cost of any single capital item does not exceed US\$5,000; and (3) the aggregate amount of foundation grant funds used to purchase capital assets does not exceed one-quarter (1/4) of the total grant funds (US\$25,000).

Indirect Costs. Grant funds may not be used to pay any indirect costs. Indirect costs are defined as (1) overhead expenses incurred as a result of the Project, but that are not easily identifiable with the Project and (2) administrative expenses that are related to overall general operations and are shared among projects and/or functions. Examples of indirect costs include, but are not limited to, executive oversight, accounting, grants management, legal expenses, utilities, facility maintenance. Allowable **direct costs include personnel, supplies, subcontracts, travel, and other expenses (equipment).**

Anti-Terrorism. You confirm that you are familiar with the U.S. Executive Orders and laws that prohibit the provision of resources and support to individuals and organizations associated with terrorism and the terrorist related lists promulgated by the U.S. Government. You will use reasonable efforts to ensure that you do not support or promote terrorist activity or related training, or money laundering. Such efforts to comply with this provision should not be interpreted to interfere with your commitment to academic freedom and open debate on controversial issues.

II. Compliance

Compliance By All Parties. As the grantee for the Project, you agree that (1) all agreements with subcontractors to which you pay foundation grant funds will be consistent with the terms and conditions of the Grant Agreement; and (2) all subcontractors to which you pay foundation grant funds shall be in compliance with the terms of the Grant Agreement (including but not limited to all limitations on the use of grant funds). You also agree that any activities by the foundation in association with the Project or the Proposal will not modify the provisions of the Grant Agreement or constitute the basis for any claim by you against the foundation. You have obtained all necessary regulatory and governmental licenses and approvals required to pursue the Project.

Conflict of Interest. You represent that you and any subcontractors selected by you to participate in the Project shall have in place and agree to comply with a conflict of interest policy, and that such policy complies with all relevant regulatory and legal requirements.

III. Research Practice Assurances

Limitations on Human Subjects Research. Grant funds may be used for human subjects research (including, but not limited to, the use of any human tissue samples or the conduct of human clinical trials), but you must have all appropriate approvals, assurances and certifications (including, but not limited to, IRB approvals) as of the date the Grant Agreement is fully executed.

Compliance For All Sites. You agree for each venue in which any part of the Project is conducted, you and your subcontractors shall comply with all laws and regulations applicable to the conduct of the Project (including, but not limited to, any research or other activities that are governed by human subjects, animal welfare, and/or biosafety guidelines, laws or regulations), as well as to comply with and assure and gain timely, appropriate prior approval for all activities subject to regulation and/or other types of required assurances, certifications or legal requirements. All appropriate approvals, assurances and certifications must be obtained no later than the date the Grant Agreement is fully executed. You acknowledge and agree that, as between you and the foundation, you take and will have full responsibility for all such compliance, both for yourself and all other sites included in the Project, including without limitation those activities conducted through subcontracts.

IV. Payment and Reporting Schedules

Payment. **FOR NON-PROFIT GRANTEES:** The Foundation will disburse the grant funds to you via check or wire transfer within 10 business days of receipt of the countersigned Agreement. **FOR FOR-PROFIT GRANTEES:** Subject to the Foundation's receipt of the countersigned Agreement, the Foundation will disburse grant funds to you via check or wire transfer based on your performance of all obligations under this Agreement, and upon your submission of invoices to the Foundation for any amounts receivable under this Agreement. Invoices shall be submitted every three to six months and each shall contain enough detail to enable the Foundation to determine the accuracy of the amount(s) requested. Except for amounts the Foundation withholds in good faith, the Foundation's payment to you of each properly submitted and correct invoice will be due forty-five (45) days after the Foundation receives that invoice. All invoices shall be sent to the Grand Challenges Explorations Program Coordinator.

Reporting. You agree to provide the foundation with a final Financial and Scientific Report via email to the Program Coordinator no later than December 15, 2014. **FOR EXPENDITURE RESPONSIBILITY**

GRANTEES: Your Final Financial and Scientific Report must break down expenses by organizational fiscal year.

Foundation templates, guidelines and other information will be communicated via e-mail once a countersigned grant agreement has been returned. All questions should be submitted electronically to the Grand Challenges Explorations Program Coordinator.

Phase II Funding Eligibility. If you wish to be considered for a Grand Challenges Explorations Phase II grant, you are allowed one submission. You will receive an email from the Grand Challenges Explorations Program Coordinator with specific dates and details on these deadlines.

Please choose the submission period that would best support your case for additional funding.

Subcontracts. Although you may not subgrant any funds received under the Grant Agreement, you may subcontract with third parties to conduct Project activities, so long as the aggregate amount of foundation grant funds paid to subcontractors does not exceed one-third (1/3) of the total grant funds (US\$33,000). As the grantee for the Project, your organization has sole responsibility for selection and oversight of any and all subcontractors. The foundation does not approve the selection of any of your subcontractors, and will not oversee their respective activities. Therefore, no implication should be made to investors, media or the general public that the foundation supports the activities of any subcontractor. The foundation requires that you include this stipulation in any agreements with subcontractors you engage to assist with the Project.

Record Maintenance and Inspection. You agree to maintain (and require your subcontractors to maintain) adequate technical and financial records to enable the foundation to easily determine how the grant funds were expended. Such records shall be maintained for at least three years following termination of the Grant Agreement, and will be available for review by the foundation personnel or our designee upon reasonable notice.

V. Global Access

Global Access. The Project, and the technologies and information arising from the Project, will be conducted and managed consistent with the Foundation's charitable purpose of ensuring "Global Access." Global Access requires that (a) the knowledge gained during the Project be promptly and broadly disseminated and (b) the intended product(s) be made available and accessible at reasonable cost to people most in need within developing countries. Your Global Access obligations regarding Project technologies and information will survive the Grant Period.

VI. Mandatory Participation in Designated Grand Challenge Explorations (GCE) Activities

GCE Initiative Meetings. You may be asked to participate in a foundation-sponsored GCE initiative meeting. If invited, you agree to participate and the foundation will pay reasonable travel expenses associated with your participation (either as a supplement to the grant funds or otherwise as determined by the foundation). These travel expenses associated with your participation are in addition to the US\$100,000 grant award. All travel arrangements must be made in accordance with the foundation's travel policy which will be provided with any meeting materials.

Collaboration.

The foundation expects that grantees pursuing similar grand challenges and overarching goals will communicate and collaborate on a periodic basis in achieving progress towards these solutions. If appropriate, the foundation may identify to you the other entities with which you should consider collaboration.

VII. Publication

Publication. You agree to prepare data sets and findings resulting from the Project for public presentation on the Grand Challenges for Global Health website (www.grandchallenges.org) as soon as practical following conclusion of the Project, after first evaluating whether there is a need to secure IP rights in order to facilitate the achievement of the Global Access Objectives. All investigators supported in whole or in part by funds from this grant must be made aware of this obligation, and should be encouraged to publish or otherwise disseminate the Project findings as broadly and promptly as reasonably possible. All publications must include the acknowledgement, "Funded by a grant from the Bill & Melinda Gates Foundation through the Grand Challenges Exploration Initiative".

Grant Announcements; Public Reports and Use of Foundation Name and Logo. The Foundation will include information on this grant in our periodic public reports and may make information about this grant public at any time on its web page and as part of press releases, public reports, speeches, newsletters, and other public documents. You may distribute your own news release about your grant, as long as (1) it is released after the Foundation's announcement, and (2) you use a template release that the Foundation will provide upon request. The template will include an overview of the Grand Challenges Explorations initiative, the total number of grants being announced, and space for you to add details about your project. You agree to use the template press release and obtain advance approval from the Foundation of the date of release, or of any other use of the Foundation's name or logo. The Foundation requests an opportunity to review and comment on subsequent press releases or reports that are directly related to the grant.

Counterparts; Original. This Grant Agreement, including any amendments, may be executed in counterparts which, when taken together, will constitute one Grant Agreement. Copies of this Grant Agreement will be equally binding as originals and faxed or scanned and emailed counterpart signatures will be sufficient to evidence execution, though the Foundation may require you, the grantee, to deliver original signed documents.

Entire Agreement; Amendment. The Grant Agreement will constitute the entire agreement and supersedes any prior oral or written agreements or communications between the parties regarding its subject matter. The provisions of the Grant Agreement are severable so that if any term or provision is found for any reason to be invalid, illegal, or unenforceable, such finding shall not affect the validity, construction, or enforceability of any remaining term or provision. The Grant Agreement may be amended or modified only by a mutual written agreement of the parties.

VIII. Term of Offer

Grant awards are conditional upon a successfully executed grant agreement and offers are only valid until the date indicated by the Grants Management team. Grant Agreements received after the given deadline may not be considered for funding. More information will be sent to those being considered for a GCE award. The scheduled start date for all Round 10 GCE Phase I grants is May 1, 2013.
